the Goethe-Institut. @bureauesartsvisuels

awakening to them again, in droves
surrounding, sleeping
on the blue to cloud escarpment
cage to bridge
horizons - paranoiac candy - laid
to loving, death and utility

rolls and spills itself in reams
uncover rook, nor shroud of truth
gazing drinkless thru the canapés
a brain that dries itself in tethered welt
will equal after all, it's
party-time on little screens, where
frigid grimace no more ply frost

costume to the quotient thin
daylight of the heart balloon must
be immaculate or gored
bazaar, oh welcome yes
how happy am to see you nest
again, all of my friends
from cast to couch, with
dolls in arms in bedded rest
the wall's a wand.
